Aim of the Competition, Participants, and Subject of the Competition 2017

2.1 / Juries

Three independent juries (named by the director of Design Cabinet CZ with consideration of announcers) will assess the accepted works.

The High School Jury will consist of appointed High School teachers and professional designers or artists. The University Jury will consist of appointed University pedagogues and professional designers or artists. The International Jury will consist of independent experts, curators, and professional designers or artists. The Juries may be international.

Jury members will be appointed in cooperation of individual educational institutions and organizers of the competition.

The High School and the University juries will be assembled on these principles:

A pedagogue may become a member of jury if at least two works from his/her atelier were accepted and the school confirmed his/her appointment.

Some members of juries are pedagogues whose students were awarded in the last year's competition (National Award, Excellent Design or Good Design).

Some members of juries are pedagogues from the directly cooperating schools (Art and Design Faculty of the J. E. Purkyně University in Ústí nad Labem, Ladislav Sutnar's Art and Design Faculty of the West Bohemian University in Plzeň, Faculty of Mechanical Engineering Brno University of Technology).

In case when the constitution of jury does not correspond to the set of branches of accepted works, then a next member will be appointed along results of the last year's competition.

Composition and results of the International Jury will be published in a separate document.

Schools will be called upon to taking part in juries by Director of Design Cabinet CZ. Each addressed educational institution will make a proposal of jurors and their deputies with consideration to the recommendations of Design Cabinet CZ Director.

Constitution of the juries will be published on www.designcabinet.cz, www.studentskydesign.cz/en, on web pages of the cooperating announcers and on the web pages of the schools and universities that will show interest in it.

The membership in the Juries is honorary.

2.2 / Way of Assessment for Universities, Schools, and Professional Schools

The first round of assessment of the works will be performed via internet.

Design Cabinet CZ will provide the appointed jurors with all the necessary materials (photos, videos, animations, annotations etc. in digital form), table with the list of the accepted works, criteria for assessment, assessment point scale, and tables for assessment.

Juries, Way of Assessment the Accepted Works, and Awarding

Each juror will assess each work individually by recording points into the table along defined criteria.

Criteria of assessment:

- Originality, innovation
- Technical and technological level of advancement
- Harmony of the aesthetic, functional, and ergonomic design
- Ethical, environmental, and social aspects
- Next criteria defined by the juries

The assessed works will be anonymous, i.e. the jurors will know only registration number without knowing names or schools.

Director of Design Cabinet CZ nominates the secretary of jury and the deputy to secretary. The secretary will process the completed assessment tables and on the base of number of points from all jurors then will decide which works will be nominated for National Award for Student Design. In the case when there is not a clear level for definition of nomination, new materials will be sent to jurors for next round of assessment.

The secretary and the deputy are responsible for organization of assessment, communication with jurors, maintaining running documentation, and working out of the final report.

Members of the both University and High School juries will have at least 10 days for the assessment of works.

All registered and accepted works will be assessed.

Point assessment of the works will be registered.

Any juror may help with evaluating of assessment tables and check the results when assessing is finished.

2.3 / Nominations and Advancement to the Final National Round of the Competition

Both the University and High School Juries decide on dependency on the point assessment about nominations for the National Award for Student Design 2017. The independent National Jury consisting of professional designers and experts (respected personalities out of educational institutions) will award at most 9 prizes on the level of Outstanding Student Design, 9 prizes on the level of Excellent Student Design and one National Award for Student Design * GRAND 2017 and the highest awarded work of secondary school students will get The National Award for Student Design JUNIOR * 2015 (unless the National Jury issues other decision).

The International Jury may determine different number of awarded in the individual categories but the total sum must not exceed 21 prizes. In the exceptional case the jury may award prize of jury.

All nominated works may be awarded special prizes by cooperating announcers or partner organizations.
